Work experience

I have worked at Vogue salon for one year and I enjoyed it.
I have cut many people's hair.
I have used equipment for hairstyling: scissors, rollers, hairdryer, brush, curlers.
I had to work with all styling products, such as foam, spray, lacquer.
While at work, I was in contact with many people and that pleased me a lot.
I have answered the telephone to book appointments.

I am now offering you my services.
